

## New NCCN Pharmacy Updates Webinars Launched

The availability of new therapeutic options and emergence of novel therapies continues to dramatically impact the oncology landscape. The new NCCN Pharmacy Updates Webinar Series is designed for pharmacists, nurses, and other members of the oncology care team to review the clinical and patient considerations that influence how to effectively optimize management of patients with various cancer types.

Featuring expert faculty from NCCN Member Institutions, the following schedule of webinars is aimed at providing clinicians with the latest advances in patient management in order to deliver optimal care:

- **Introduction to the NCCN Guidelines for Myeloproliferative Neoplasms and a Comprehensive Review of the Use of JAK2 Inhibitors**  
Friday, February 23, 2018 • 4:30–5:30 PM EST  
*Stephen J. Harnicar, PharmD, BCOP, BCPS, Memorial Sloan Kettering Cancer Center*
- **Integrating New Treatment Options for Multiple Myeloma: Focus on Oral Therapies**  
Wednesday, March 28, 2018 • 5:00–6:00 PM EDT  
*Richard L. Fong, PharmD, BCOP, UCSF Helen Diller Family Comprehensive Cancer Center*
- **New Agents for Prevention and Treatment of Chemotherapy-Induced Nausea and Vomiting**  
Monday, April 16, 2018 • 4:00–5:00 PM EDT  
*Laura Michaud, PharmD, BCOP, CMQ, The University of Texas MD Anderson Cancer Center*

## Access NCCN Templates Within Your Electronic Health Record

NCCN continues to add to the library of NCCN Chemotherapy Order Templates (NCCN Templates) to improve the safe use of drugs and biologics in cancer care. The NCCN Templates, derived from the NCCN Clinical Practice Guidelines in Oncology (NCCN Guidelines), include chemotherapy, immunotherapy, supportive care agents, monitoring parameters, and safety instructions to improve the safe use of drugs and biologics in cancer care. Special instructions for self-administered chemotherapeutic agents are also provided.

A goal of the NCCN Templates is to enhance patient safety by empowering healthcare providers to standardize patient care, reduce medical errors, and anticipate and manage adverse events.

NCCN has collaborated with Cerner, Epic, Flatiron, and most recently, MEDITECH, to integrate the NCCN Templates into its electronic health record (EHR).

- If you are a Cerner customer interested in accessing the integrated NCCN Templates within PowerChart Oncology, please contact [CernerRequest@nccn.org](mailto:CernerRequest@nccn.org) for more information on licensing.
- If you are an Epic customer interesting in accessing the integrated NCCN Templates within Epic's Beacon Oncology Information System, please contact [EpicRequest@nccn.org](mailto:EpicRequest@nccn.org) for more information on licensing.
- Flatiron (OncoEMR) and MEDITECH customers please contact your Flatiron or MEDITECH representative for more information on accessing the integrated NCCN Templates.

For more information on NCCN Health Information Technology collaborations, visit [NCCN.org/HIT](http://NCCN.org/HIT).
